

CATARACT CLINIC

CENTRE FOR ADVANCEMENT IN CATARACT SURGERY

ADVANCED PHACOEMULSIFICATION PROGRAMME

UNDER THE MENTORSHIP OF DR. NAREN SHETTY

ABOUT US

Narayana Nethralaya is a super specialty eye care hospital in Bangalore, committed to providing quality eye care and treatment of eye disorders to all sections of society. Concern for our patients' well-being and meeting their expectations is at the core of what we do. Our state-of-the-art facilities, latest treatment techniques, highly experienced and award-winning eye specialists, competent staff, and certified technicians allow us to provide superior eye care for patients and attain the best possible results.

COURSE OBJECTIVE

This course is meticulously designed to offer ophthalmologists hands-on training in phacoemulsification, utilizing cutting edge equipment in both wet lab and live operation theatre settings. Candidates will have the invaluable opportunity to learn under the guidance of seasoned cataract surgeons, ensuring a comprehensive and advanced skill development experience.

HIGHLIGHTS OF THE COURSE SCHEDULE

- Optimal wet lab facility for trainees
- Virtual simulators for effective concept building and better hand eye co-ordination.
- The goal is to train ophthalmologists to become highly competent and meticulous trained surgeons in Phacoemulsification
- Surgeries are supervised by senior instructors until surgeon gains confidence to perform independent surgeries.
- Cataract training at our institute now incorporates 3D guided display system to ensure that both the trainer and trainee share a synchronized visual perspective, enhancing collaborative surgical assistance and improving overall surgical precision.
- Post-operative review of the cases done by senior consultants.
- Every training case is recorded and discussed at the end of the session for better recall and fine tuning of techniques.
- The course encompasses comprehensive instruction on IOL selection in different case scenarios, covering Toric IOL, EDOF IOL and Multifocal lenses.
- Candidates will have regular lectures on Biometry and other Advanced imaging modalities.
- Candidates will have the opportunity to observe and gain insights into femtosecond laser-assisted cataract surgery (FLACS).
- Minimum number of Phacoemulsification surgeries: 40
